

Rebuilding an Inclusive, Value-based Europe of Solidarity and Trust through Social Investments (Re-InVEST) – final conference

Venue & dates

Irish College, Janseniustraat 1, 3000 Leuven - 28-29 March 2019

Theme of the conference

In 2013, following a period of crisis and harsh austerity measures, the Commission launched the Social Investment Package (SIP) as a first endeavour to rebalance economic and social progress. Our ambition with the Re-InVEST project (2015-2019) is to contribute to strengthening the philosophical as well as the institutional and empirical underpinnings of the SIP – linked with the European Pillar of Social Rights – with a view to fostering a more inclusive Europe. The final conference will sketch a full panorama of the 50 research reports and aims to contribute to a dialogue between academic researchers, public and social services, civil society and policy makers around various aspects of social policy.

Target audience

Civil society organisations, social partners, public and social services, national and EU policy makers, academic researchers.

Organising team

The Re-InVEST consortium is embedded in the network 'Alliances to fight poverty', a network of civil society organisations, trade unions, policy makers and academics co-ordinated by the Flemish Christian labour movement Beweging.net, and committed to a more inclusive Europe.
