

28-29 March 2019

Final conference 'Re-InVEST - Rebuilding an Inclusive, Value-based Europe of Solidarity and Trust through Social Investment'

The Leuven Institute for Ireland in Europe, Jansenusstraat 1, Leuven (Belgium)

An opportunity for dialogue between researchers, policy makers, public and social services, and civil society.

Theme of the conference

In 2013, following a period of crisis and harsh austerity measures, the Commission launched the Social Investment Package (SIP) as a first endeavour to rebalance economic and social progress. Our ambition with the Re-InVEST project (2015-2019) is to contribute to strengthening the philosophical as well as the institutional and empirical underpinnings of the SIP – linked with the European Pillar of Social Rights – with a view to fostering a more inclusive Europe. The final conference will sketch a full panorama of the 50 research reports and aims to contribute to a dialogue between academic researchers, public and social services, civil society and policy makers around various aspects of social policy.

Specific sessions will be devoted to the following topics:

- social investment: from a human capital to a human rights and capabilities approach;
- the long-term impact of the 2008-2014 crisis on vulnerable groups;
- vulnerability, economic crisis and democratic deficit;
- social protection, active labour market policies and social inclusion;
- a social investment perspective on service markets: five case studies (early childhood education, health care, housing, water provision, basic financial services);
- fostering a social investment climate: macro-economic and political conditions;
- participatory action research with vulnerable groups – a human rights and capabilities approach.

Target audience

Civil society organisations, social partners, public and social services, national and EU policy makers, academic researchers.
